BMEspark

3rd Annual Conference

3 May 2007, Central London

Better commissioning, better service delivery:

Making the most of Supporting People for black and minority ethnic vulnerable people.

BMEspark is the Communities and Local Government commissioned information network for commissioners and providers of housing related support services seeking to meet the needs of BME vulnerable people.

The major themes to be explored at the conference include:

- What has been learnt about unmet BME needs for housing-related support services in the three years of Supporting People?
- What are the best ways of commissioning services to meet unmet BME needs?
- How can commissioning and providing services be improved to meet BME needs?
- How can commissioners and providers ensure they meet the race and diversity requirements of the DCLG, Audit Commission and the Quality Assessment Framework?
