

Abstract submission

- All abstracts should be presented in English, and, where appropriate, should be structured under the headings Background, Methods, Results, Conclusion
- The file should be Rich Text Format (.RTF) for documents with graphics, or a text file (.TXT)
- Align text left; do not use right hand margin justification
- Do not break words with hyphens
- Use a blank line to separate paragraphs
- Use the ASCII character set for special characters (e.g. Greek letters and mathematical symbols)
- Please denote recognised gene names in *italics* and their encoded proteins in regular text
- If reference is made to proprietary pharmaceutical products or equipment, the manufacturer's name, location and country should be included in parentheses
- Where appropriate, please acknowledge any source of funding for studies at the end of the abstract under an Acknowledgement heading

Title	At the top of the page, the title should be in bold sentence case. Do not include a full stop at the end of the title.
Authors	On a separate line, list the authors' initials and last names, separated by commas. Do not use full stops or spaces between initials.
Affiliation	On the next line provide the full address of the institution for each author. Where there are multiple affiliations, use superscript numbers after author names and before affiliations to denote which author is from each institution.
Figures and tables	<p>Original figures or tables may be submitted for inclusion in abstracts and should be incorporated into the file. Figures should have a minimum resolution of 300 dpi.</p> <p>Tables should have a title, be included in the file and prepared using a table object in word processor file (not as tabbed text). All tables should be titled.</p>
References	<p>Up to four references may be cited. References should be numbered consecutively, in square brackets in the text, in the order in which they are cited in the text.</p> <p>Obtaining permission to quote personal communications and unpublished data from cited author(s) is the responsibility of the author.</p> <p>References should be written in MEDLINE style, for example, Koonin EV, Altschul SF, Bork P: BRCA1 protein products: functional motifs. <i>Nat Genet</i> 1996, 13:266-267.</p>
